

Exacts Nursing Infusion Services

We offer you a complete range of IV infusion nursing services that are founded on compassionate care and education in order to achieve lasting outcomes. There's no faster way to give your body the cure or nutrition it needs than through IV therapy. This is an incredible process that allows fluid to be absorbed directly into your bloodstream, without having to go through the digestive process to give you optimal results.

Mission Statement

Our mission is to consistently deliver competent and compassionate care while providing quality education to our patients and their families. We are committed to remaining honest and professional in everything we do, furthering our education in order to provide better services, and putting our sole focus on quality patient care and satisfaction.

About the Company

Exacts Nursing Infusion Services was formed from one dedicated individual's desire to provide a more comprehensive brand of nursing service to our society. We are talking about none other than infusion solutions. As of late, these methods have proven to be incredibly beneficial to patients who are no longer responding to traditional oral medications or vitamins, as well as those who simply desire faster results.

About the Owner

The CEO of Exacts Nursing Infusion Services is none other than Toni Weir, an RN with over 20 years of experience in the medical field involving a wide range of areas in the medical fields including Emergency Department, Home Health, and LTC settings. She possesses a strong clinical background in IV infusion, and Med-Surg, She is versed with different populations and community resources.
